

# FLEX-IN

✓ EFFIZIENZ +

**HEITEC**  
HEISSKANALTECHNIK

## PRODUCT FEATURES:

- Ready-to-install hot runner system
- Fully assembled and tested
- Wired and ready to connect to the control system of your choice
- Flexible positioning of the nozzles on the hot runner manifold with FLEX-IN fasteners
- Can be combined with almost all Heitec standard nozzles
- Also available as valve gate system
- Extremely easy mould integration
- Reduces the installation effort by up to 95% compared to standard hot runner systems
- Installation performed while cold
- Heat expansion of hot runner manifold compensated by the FLEX-IN elements
- Reduces the risk of damage to the hot runner system caused by installation mistakes or incorrect wiring
